BUSINESS SUMMARY

We specialize in Database Design and Administration, Data Warehouse Design, BI, Automated Testing, Performance and Load Testing using HP/Selenium, Enterprise Architecture, Applications Analysis, Systems Design, Development, Data Management, Quality Assurance, and Configuration Management. Our approach to Continuous Integration, Continuous Delivery (CICD) is to build once, deploy anywhere. Our agile CM solution builds robust, error-free, and accurate software to achieve CICD and we enhanced operations by automating software delivery. We deliver Self-Serving Agile Business Intelligence solutions rather than requiring a bureaucratic waterfall implementation and make it possible to start small and roll out BI solutions using your current infrastructure in the cloud or on-premise.
